## FLOWER TIME

IN THE FOOTHILLS

IS THERE anything more appealing to nature lovers than a Spring-time stroll among the wild flowers?

The gentle rains of the past few weeks and the balmy sunshine is coaxing nature to smile with her flowers most benignly.

Take a little journey over our lines to the upper San Fernando Valley, to the foothills and canyons above Glendale, Altadena, Sierra Madre, Monrovia, or Duarte. If you would go farther afield, go to Fuente Largo and explore the San Gabriel River canyon and revel in the joy of a long Spring-time hike.

## HONOR ROLL SHOWS BRAINY ONES

Sokari heads the recently published Honor Roll for last semester with 10 members who have High Honors. The class of '23, is second with 8 names to its credit and Juniors and Sophomores follow with 7 and 5 respectively. In the list of Departmental Honors, those who attained AA in at least one course, and did not fall below B in any, the Freshmen have 11 names, one more than '20.

Following are the names of the students who have High Honors, arranged by classes. Complete copies of the roll may be obtained from the registrar's office:

Corey, of Chaffey High School, took the measures of the other jumpers when he cleared the bar at 6 feet, 2 inches. Voorhies was third.

Coach Nixon and Manager Chambers are to be congratulated on staging the meet. Everything went off in first class order. Friday it looked as if the meet could not be staged, due to the rain, but some hard work Saturday morning put everything in condition.

Here are the results:

## College Man Is In China Revolt

*Progress* — *Today*  
POMONA COLLEGE—How

former Pomona college student Geoffrey C. Chen figured as a leader in the recent student protests against the tariff conference in China, is told in a letter received from Chen by William S. Ament.

Chen, who graduated from Pomona college in 1920 and is now a professor in the National University of Peking, figured in the first protest of October 26 in which the students fought with the police in order to open a public meeting. Chen was wounded on that occasion and did not recover for two weeks. In December Chen was arrested for distributing hand bills but was kept in the police station for only two hours. Upon protesting the eight powers ultimatum on March 18 he was one of three thousand students who held a demonstration meeting. The body guards of the Chief Executive shot the students and forty-three were killed on the spot. Chen was among the 200 that was wounded and his wife had her hat shot off.

At the time of writing the letter Chen was in hiding in a private secret place, waiting to go out again when the regular governmental machine is set up.

Chen writes that he has written twenty articles for the International Press Correspondence of Vienna and is now the editor of a quarterly and a weekly. The quarterly is purely academic and in its thirteenth issue and the weekly is a paper of popular opinion and a review of foreign affairs, entitled Contemporary Review and Critic. Both periodicals are in Chinese, the weekly now having 10,000 circulation per issue.

GEOFFREY C. CHEN was a recent visitor in Claremont, coming here from Yosemite national park where he attended the Institute of Pacific relations. In April he became a member of the staff as research fellow on the International Secretariat for the Institute, located at 129 East 52nd Street, New York City. After making a number of stops in the south in connection with research, Mr. Chen returned to New York where he resides with his wife at 530 West 114th Street.

## CHU CHEW WILL SPEAK TONIGHT

Geoffrey Chu Chen the talented young Chinese student of Pomona College will speak at the Presbyterian church, corner of Holt and Gibbs, tonight at 7:30.

His subject will be "The Women of China." Mr. Chen spoke at the Presbyterian school of Missions recently and he was so popular that he has been asked to speak again. He speaks the English language quite fluently and is very witty in his remarks.

Mr. Chen studied in the New Yale College in China before coming to this country. He has been studying in the United States for four years.

After he graduates from Pomona this year he expects to take two graduate years at Yale. It is his intention to fit himself thoroughly for leadership in the New Chinese Republic.

The public is cordially invited to hear this gifted student.

### GRADUATE IS VISITOR

Chen Han-seng (formerly known as Geoffrey Chen), Pomona College '20, was a Claremont visitor Friday. He was house guest of Miss Marion Ewing Thursday night. He served as student assistant in the Pomona College library during his college days. In viewing the campus, he was guest of Dr. W. S. Ament.

Mr. Chen came from Yosemite National park, where he attended the Institute of Pacific relations. In April he became a member of the staff as research fellow on the International Secretariat for the Institute.

# Horror of Chinese Riots Told in Letter From Pomona College Alumnus

Bulletin 7/15/19

Tragedy in International Settlement of Shanghai Fills Nation  
With Terror; Prof. Chu Chen, '20, Charges Great Injustice Done in Killing 70 Students; Wounding 300

CLAREMONT, July 15.—The shooting by international police of Chinese student strikers in Shanghai has brought forth vigorous protest by the professors of the National University of Peking, prominent among whom is Geoffrey Chu Chen, a graduate of Pomona College in the class of 1920. Mr. Chen is professor of history at the National University, after having had graduate study in Chicago and Europe and having been a member of the Chinese delegation to the Washington Peace Conference.

Mr. Chen sends the following statement of facts concerning the demonstration and its suppression to correct the information which has been disseminated through the foreign press agencies:

"The tragedy which has taken place in the international settlement of Shanghai has filled the Chinese nation with horror and indignation. However, facts have been invariably distorted by different agencies for different purposes. Seeing that misrepresentations would not only aggravate the injustice done to the dead and the living, but may also tend to ferment other grave conflicts between the Chinese and foreigners, we feel it our duty to give the facts for the information of the world at large. Those who think with us that international harmony and justice are desirable, will not fail to pay due attention to the matter.

### Gives History of Strike

"The facts are clear enough. Strikes of Chinese workers demanding the increase of wages had been going on for some time in the Japanese cotton factories at Tsingtao and Shanghai, and a striker was shot and killed by the Japanese without any justifiable cause. Against this brutal act, some Chinese students who were merely young boys and girls, paraded as a manifestation of protest in the streets of Shanghai on the 30th of May last. They were armed with nothing more than pamphlets and handbills. The police of the international settlement, who are practically under the complete control of British officials and consul, not only refused to prohibit the demonstration but also arrested a number of the students taking part in it. Then the rest of the students went to the police station, demanding the release of their fellow-students. The police ordered the former to disperse. As they refused to go, a British police inspector ordered 'shoot to kill.' Six of the boys were killed on the spot, and over 40 were wounded. This did not, however, prevent the defenseless students from repeating their demonstration. So the firing of rifles and machine guns continued by the British-controlled police for at least six days. The exact number of casualties is still unascertainable, but most reports show that at least 70 were killed and 300 wounded. They are all Chinese, and not a single British or any other nationality appears on the casualty list.

"Would any right-minded people regard these boys and girls as rioters and treat them with bullets and rounds of machine guns? Could their manifestation be reasonably interpreted as 'anti-foreign' or 'Bolshevized' as some foreign-owned news agencies suggested? Were not the acts of the authorities deliberately committed, considering the fact that they did not cease for a period of six days? Why did the British and Japanese ministers in Peking not give instructions to stop the killing immediately if they did not approve or countenance it? These are the questions we want only to submit and not to answer.

### Chinese Boycott

"People in Europe and America might think it unbelievable that officials of civilized governments could ever commit or countenance such infernal acts. But explanations can be easily found. If one realizes that foreigners in China have long been privileged by stipulations of unjust treaties and thereby have lost such sense of moral and legal responsibilities as their fellowmen hold in their homelands.

"Now, bitter feelings prevail among all classes of the Chinese people. Strikes in British and Japanese factories and boycotts against British and Japanese goods are spreading

throughout the country. The ministers and consuls of Great Britain and Japan are still trying, and may continue to try, to uphold their prestige by their rifles and gunboats. But would their fellowmen at home allow them to go on with this kind of atrocities? Would not the common conscience of mankind demand to have the wrongdoers punished and the wrongs righted?"
